

Hi Doron,

Now that we're finally settled in, we wanted to take the time to let you know how much we love both of our kitchens. When we undertook this project, it was very overwhelming to us to try to design two kitchens for our home. But you stepped up and truly helped us reach our vision by listening to our ideas and guiding us to what would work best for our space and our needs. Your creativity and professionalism helped us attain a magnificent result. Our cabinetry is the finest quality, and working with you and your craftsman made the entire experience exciting. Every person that enters our home is in awe of how beautiful and unique our kitchen design is. Please don't hesitate to use us as a reference for your clients. Thank you for giving us our dream kitchen(s)!
