Dear David:

It is with great enthusiasm we write a letter of recommendation for you and your company. We often speak about how fortunate we were to have found New York Woodwork when we did.

Working with your company is a pleasure. From the beginning when we are working on the drawings, to the execution and completion of the work, your organization exemplifies professionalism with their ideas and the workmanship.

All during the installation process, when you completed the woodwork and cabinetry for the Veterinary Specialty Hospital in Forest Hills, the work was done in a neat manner, with all work being carried out by polite and courteous workers. But most importantly, the Client was thrilled with the quality and expedience with which the project was done. Not to mention your work ethic is something you can be very proud of. It is nice to know that if there is anything that a Client needs changing or adjusting, you are just a phone call away.

It was that wonderful experience that led us back to you again for other projects, and we look forward to a long relationship with you and New York Woodwork.

Feel free to refer us to anyone who need a reference for your work.

Sincerely,

John C. Hanly
