

Dear David,

It would be my pleasure to recommend your work. My kitchen and baths came out great. I was very impressed with the extensive choices you have available for the cabinets, countertops and tiles. Your services are unique also because you were able to make a custom cabinet in your shop that was not available from pre-existing cabinet suppliers. You were very accommodating to the changes in plans I requested along the way too. I am sure anyone that chooses you to renovate their kitchen or bath will be very happy with the results.

Best regards,
Tara
