Attention: David

Dear David,

I am writing to you in order to formally thank you for the excellent work you have provided in the remodeling of my home. You have always been straight forward in your assessments which can only mean that you are a man of your word, and that is really something special in this day in age. You not only do good work, but the materials that you use are first rate.

David, I am truly a satisfied customer, but more important, you and your wife have become fast friends to Maciel and myself and we consider you a friend of the family.

David, I can't thank you enough, it has been a real pleasure. I will be sure to recommend you every chance I get.

Sincerely,
